BRYCE A. ADDEO

1 Mayfair Court, Monroe Township, NJ 08831 ~ (732) 298-0084
bryce.addeo@gmail.com

Education

University of Florida, Gainesville, Florida
Bachelor of Science, Mechanical Engineering
Expected Graduation Date ~ May 2026
Current College GPA: 3.97

Experience

Manufacturing Performance Engineer Intern—PIM Brands **June 2025 – August 2025**

- Created a process flow for the Delkor packaging lines that showed the inputs, outputs and cycle times of all processes and identified areas of value-added time, non-value added time, and waste
- Tracked Overall Equipment Efficiency (OEE) of the Delkor packaging lines through Redzone software and captured the Human Machine Interface (HMI) settings during high performance
- Updated work instructions and trained operators on problem solving techniques that eliminated loss/waste
- Led a team of 8 interns on a project that planned the strategic approach and tactical execution of the Welch's Fruit Snacks 25th birthday celebration campaign
- Participated in Gemba walks that applied lean six sigma and continuous improvement methodologies

Design and Manufacturing Laboratory **September 2024 – December 2024**

- Manufactured component parts to an oscillating, 2-stroke air engine using milling machines and manual lathes and tested assembled air engines with a compressed air source of 60 feet per second
- Completed industry standard documentation such as manufacturing inspection records and engineering change notices for the manufactured parts
- Designed a food slicer to attach to the air engine on SolidWorks accompanied by three design reports

Miscellaneous Projects **September 2023 – December 2025**

- Led a group of 9 engineers to design and prototype a tether deployment system for connecting two 12U satellites to provide stable orbital mechanics and generate artificial gravity
- Developed an AI machine learning model through a supercomputer to assist in sea turtle conservation
- Completed two Finite Element Analysis (FEA) projects, including a Fully Stressed Design (FSD) study of a truss structure and a convergence analysis followed by a minimum mass optimization of a torque-arm

Tau Beta Pi Engineering Honor Society **September 2024 – Present**

- Inducted into Tau Beta Pi, the oldest engineering honor society, for being top 1/8th in my class
- Participated in community service such as street cleanups, data labeling and GatorTRAX events where I helped teach engineering topics to K-12 students

Finite Element Analysis (FEA) Teaching Assistant **January 2026 – May 2026**

- Hired by University of Florida to host office hours and grade homework, exams and reports for an FEA class

Customer Sales Associate—General Nutrition Center (GNC) **April 2021 – April 2022**

- Sold workout supplements, vitamins and other products to customers and carried out other shop operations
- Developed a product manual to assist in customer sales and communications

Honors & Achievements

- Herbert Wertheim College of Engineering Dean's List all semesters with 14 or more credits taken
- SOLIDWORKS CSWA certified (2023) (College)
- Recipient of the GMC Conference Student Athlete Award (2022) (High school)
- Recipient of the West Point Society Dwight D. Eisenhower Leadership Award (2021) (High school)

Skills

- Software skills: SolidWorks (CAD), Fusion (CAD), MATLAB, LabVIEW, Abaqus, Microsoft Office Suite
- Laboratory skills: bandsaw cutting, milling, manual lathing, tapping, sheet metal bending, stick welding
